PAINTING
SCULPTURE
& GRAPHIC ARTS

Artist's Association of Punjab

The 18th Annual Exhibition

The Artists Association of Punjab is holding its 18th Annual Exhibition of Painting, Sculpture and Graphic Arts. The Association has been providing a platform to artists from Punjab and other provinces to exhibit their works, an opportunity, which has not been as frequently forthcoming from state institutions. In the last two decades the Association has introduced a string of artists of excellence who may have remained marginalized due to institutionalized bias or lack of official patronage.

The Association has so far held six National Exhibitions and eighteen Annual Punjab Exhibitions. The number of National Exhibitions managed by the Pakistan National Council of the Arts or the Punjab Council of the Arts, in comparison is astonishingly small. This is not because the heads of these organisations have not been as eager as the Association to promote art, but mainly because of the paucity of funds, which are annually made available to the state organisations for art and culture.

Most governments out of the pressure of attending to their daily chores have not been able to recognise the role of art and aesthetic as a significant agent in establishing civilised society - a society that values truth and appreciates sensitivity to individual passions and beliefs.

It needs to be realised that social values lacking in love, compassion and aesthetic sensibility can become an obstacle in the path of discovering means and endless possibilities of bettering human life. It would be in our best interest and that of our nation, to invest in aesthetic enrichment of our self. Holding of exhibitions and promoting dialogue on intellectual and conceptual issues are part of the Association's modest efforts towards the realisation of a higher level of social and aesthetic consciousness.
